⚡ WHAT WE DO

We Trade. You Grow.

A managed platform that trades on your behalf — every member gets the same trade, at the same moment, sized to their own capital.

Fully Automated

No charts to watch. No trades to place.
The platform runs it end to end.

Fair & Proportional

One trade, every account, sized only by
capital — never by luck or timing.

You Control Profit

Profit sits in your account until you
decide to realise it — always your call.

 MARKETS WE TRADE

Forex & **Crypto** — Around the Clock

Foreign Exchange

\$7.5 trillion traded daily. EUR/USD, GBP/USD, USD/JPY and more
— 24 hours, 5 days a week.

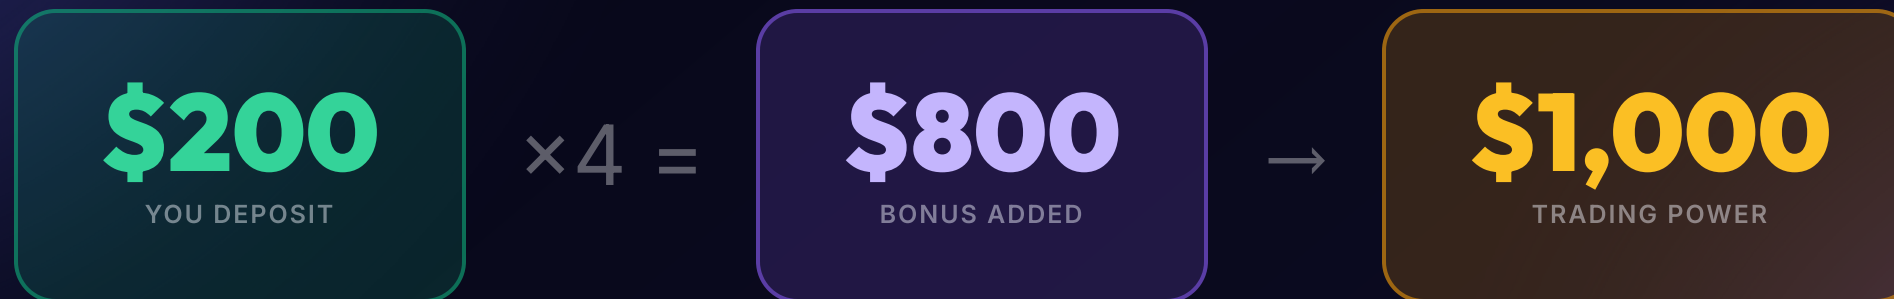

Cryptocurrency

BTC, ETH, BNB and more — momentum-driven, risk-bounded,
trading 24/7 with no days off.

🔥 THE HEADLINE NUMBER

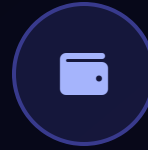

Every Deposit Gets a **4× Bonus**

(1x Real + 4x Bonus = 5x Total Capital for multiplied trades)

That's **5× your original capital** at work in the market from day one —
and it happens again every time you reclock after a lock period ends.

From Deposit to Payout

1. Deposit

Send USDT — minimum \$200 —
to your trading account.

2. 4× Bonus Applied

Trading power jumps instantly —
no extra steps.

3. Trades Broadcast

The same trade reaches every
account, proportionally sized.

4. You Realise Profit

WHEN YOU REALISE PROFIT

The 60·10·30 Split

- 60% to you, instantly
- 10% shared across 10 upline levels
- 30% keeps the platform running

Realise **\$1,000** → you get **\$600**, your upline shares **\$100**.

 TEAM COMMISSION

\$18 Per Lot — 10 Levels Deep

Earn on every lot your team trades — **win or lose**. It's a volume rebate, not a share of winnings, so it never depends on a good trade.

 YOUR CAPITAL

Locked to **Protect** It — Not to Trap It

A Stable Lock Period

Capital locks on your first deposit, keeping every member's trades consistent and fair.

Full Return, Every Time

When the lock ends, your full original capital returns to your wallet automatically — or reclock it for another 4× bonus cycle.

Meanwhile, profit, commissions and any wallet balance are **always withdrawable** — nothing about those waits on the lock.

 BUILT TO BE TRUSTED

Every Rupee, **Accounted For**

KYC Verified

No deposit or withdrawal until your identity is approved.

8-Digit PIN + 2FA

Every withdrawal needs a PIN and a second-factor code.

Permanent Records

Every transaction is recorded and never quietly edited.
